Welcome Message for

ASLS Bangkok 2026

Bigger, Bolder, and More Groundbreaking Than Ever!

Dear Distinguished Colleagues, Esteemed Speakers, and Friends,
It is my great pleasure to welcome you to **ASLS Bangkok 2026**.

This year, we gather under the theme **“Bigger, Bolder, and More Ground-breaking Than Ever!”**—a reflection of ASLS’s continued growth and our commitment to advancing the field of aesthetic medicine. This conference marks another important milestone for ASLS, bringing together **distinguished speakers and valued industry partners from across Asia and many countries around the world** to share knowledge, exchange ideas, and explore the future of aesthetic medicine.

The field of aesthetic medicine continues to reach new heights through advances in technology and innovative treatment approaches. **ASLS Bangkok 2026** will serve as a meaningful platform for sharing the latest knowledge and clinical experiences while exploring the future direction of our industry together.

Over the years, ASLS has grown into one of Asia’s leading academic communities in aesthetic medicine. Through the participation and support of distinguished speakers, industry partners, and medical professionals from around the world, ASLS has established itself as a network that promotes education, innovation, and international collaboration. It is truly meaningful to continue this journey of growth together with all of you.

I would like to express my sincere gratitude to our Thailand Ambassadors,

**Prof. Dr. Woraphong Manuskiatti,
Prof. Dr. Rungsima Wanitphakdeedecha,
Asst. Prof. Dr. Mart Maiprasert,
Asst. Prof. Dr. Thanya Techapichetvanich, and
Dr. Atinuch Doungkaew**

for their invaluable support and dedication in making this conference possible. I also extend my deepest appreciation to **Vice President Dr. Ho Seong Choi** and the Organizing Committee for their outstanding leadership and tireless efforts in preparing this event. As we gather in the vibrant city of Bangkok, I encourage all participants to engage actively, share experiences openly, and build meaningful relationships that will continue long after this conference concludes.

On behalf of ASLS, thank you for joining us on this exciting journey. I wish you an inspiring, productive, and memorable experience at **ASLS Bangkok 2026**. Together, let us continue to make our field bigger, bolder, and more groundbreaking than ever.

Warm regards,

Minho Lee
President of ASLS

Dr. Young Jin Park
Main Director of ASLS

Welcome Message for

ASLS Bangkok 2026

Bigger, Bolder, and More Groundbreaking Than Ever!

I am **Park Young Jin (Tom)**, and it is my great honor to serve as the **Main Director of this congress**.

Aesthetic medicine is moving forward at a pace few other fields can match, and **Thailand stands at the center of that movement in Southeast Asia**.

The Aesthetic Surgery and Laser Society (ASLS) has hosted scientific meetings across multiple countries, and our congress in Bangkok has grown out of a simple conviction: that the future of this discipline will be written not by one country alone, but by physicians who are willing to share what they know across borders.

This is our third meeting in Bangkok. What began as an introduction between the Korean and Thai aesthetic medicine communities has become a congress that our colleagues return to each year, and that return is the highest compliment this meeting could receive. Building on the trust earned over the first two editions, ASLS Bangkok 2026 has been prepared with an **expanded scale and a more rigorous scientific program**. Over two days, the congress runs two parallel tracks — **Energy & Device**, and **Injectable & Regenerative** — bringing together leading physicians from Thailand, Korea, and beyond.

You will find the innovations now defining patient care: **regenerative injectables and biostimulatory scaffolding, advanced energy-based devices**, thread and tissue-support techniques, and precision protocols tailored to Asian skin and Asian morphology. Alongside expert-led lectures and panel discussions, dedicated video sessions place you directly beside the operator, step by step, with live commentary on technique, decision-making, and complication management. Our aim is that every delegate leaves not only with new knowledge, but with **protocols that can be applied in clinic on Monday morning**.

We are heading toward the future, and we want to walk that road together with Thailand. ASLS is committed to making this congress **a regular platform for exchange and growth between our two countries** — not a single event, but a continuing partnership that deepens with each edition. With your dedication and your support, we will keep raising the standard of what this meeting can offer.

This is where respected specialists convene, where emerging talent is welcomed into a circle of expertise, and where the exchange of ideas carries the field forward. I sincerely hope this congress will serve as a **meaningful bridge between Korea and Thailand**, strengthening the trust and collaboration between our medical communities.

Thank you for your interest and your support. We look forward to welcoming you in Bangkok.

Sincerely,

Park Young Jin (Tom)

Avani hotels are designed for the way we travel now.
And we think it's all about balance.

Balance between coolness and kindness, between design and function and between service and privacy.

With properties in Europe, The Middle East, Asia, Africa and Australia, the Avani portfolio is growing all the time. No matter where in the world a guest discovers us, they'll find a hotel that gets the balance right. We believe we'll make a lot of friends by delivering a seamless stay, from warm welcome to fond farewell. All delivered with a genuine smile and a cheeky wink.
